

1. A method of customizing a storage medium having one or more recorded session(s) and having a writeable portion comprising the steps of:

2. The method of claim 1 wherein more than one particular users are selected from the plurality of users and each of the particular users is provided with a recordable medium with the identifying data for such user.

4. A method of customizing a hybrid CD having a recorded session(s) in a ROM portion and having a writeable portion comprising the steps of:

- a) providing in a preformed session a program for marketing or sales of one or more particular products or services;
- b) writing information in the writeable portion pertaining to a particular user selected from a plurality of potential users of the product or services described in a preformed session, such information including data which particularly identifies the particular user; and
- c) delivering the CD with the user-identified data to the particular user.

5. The method of claim 4 wherein more than one particular users are selected from the plurality of users and each of the particular users is provided with a CD with the identifying data for such user.

6. The method of claim 4 further including the step of using the identification information to particularly write on another medium information related to that user.

7. The method of claim 6 when the another medium is an optical disc which contains information related to the product or services.

8. The method according to claim 4 wherein a subroutine is provided in the session to permit access to the written information in the writeable portion.

9. A method of customizing a CD having one or more recorded session(s) and having a writeable portion to permit user access to product or services provided over a network, comprising the steps of:

a) providing in a recorded session a program for marketing or sales of one or more particular products or services and a subroutine which permits an identified user to have access to the product or services;

b) writing information in the writeable portion pertaining to a particular user selected from a plurality of potential users of the product or services described in a recorded session, such information including data which particularly identifies the particular user;

c) delivering the CD with the user-identified data to the particular user; and

d) the user accessing the CD to the network to permit access to the products or services.

10. The method of claim 9 wherein more than one particular users are selected from the plurality of users and each of the particular users is provided with a recordable medium with the identifying data for such user.

09/23/00 09:23:00

11. The method of claim 9 further including the step of using the identification information to particularly write on another medium information related to that user.

1. The first group of people who are affected by the crisis are the
